

Tecumseh Warranty update, September 29, 2008:

If a warranty compressor is within 12 months of date code we will take it back, even if purchased from another distributor. If the compressor is 12-18 months old we only take it in for warranty replacement if it was purchased from Minvalco or if the customer has a copy of the purchase invoice. A \$45.00 handling charge will be assessed if it was not purchased from Minvalco. Credit will be issued upon receipt of the factory credit.
